

Naman Shetty

Software Developer

Pune, India | +918956217833 | shettynaman01@gmail.com

SUMMARY

Aspiring software developer with hands-on experience in full-stack development and a strong interest in building practical applications. Enjoys understanding systems end-to-end, from frontend and backend to databases and APIs. Quick to learn new technologies, solve problems, and turn ideas into functional, user-focused solutions. Interested in solving problems, exploring new technologies, and continuously improving development skills.

EDUCATION

Master of Computer Applications (MCA) — CGPA: 6.85 / 10 (ongoing)

MIT World Peace University, Pune

Bachelor of Computer Applications (BCA) — CGPA: 8.60 / 10

Sandip University, Nashik

Higher Secondary Certificate (HSC) — 61.50%

St. Lawrence High School & Jr. College, Nashik

Secondary School Certificate (SSC) — 75.60%

St. Lawrence High School & Jr. College, Nashik

TECHNICAL SKILLS

Languages & Web Technologies: TypeScript, Python, Java, JavaScript, SQL, HTML, CSS

Backend: Node.js, Express.js, REST APIs

Frameworks & Libraries: React.js, Pandas, NumPy, Vite, Matplotlib

Databases: MySQL, PostgreSQL

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Eclipse

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming

Machine Learning: Model Evaluation, Exploratory Data Analysis, Feature Engineering

PROJECTS

Student Assistance — Full-Stack Student Assignment Management System

- Developed a student-focused application for managing assignments, deadlines, priorities, and completion status.
- Implemented features including assignment creation, editing, deletion, completion tracking, search, filtering, and sorting.
- Built the frontend using React.js, JavaScript, and Vite with a responsive and interactive user interface.

AI-Based Coding Problem Solver — AI-Assisted Learning Platform

- Designed an AI-powered platform to help students and beginner programmers understand coding problems and improve their problem-solving skills.
- Explored AI-assisted explanations, debugging support, step-by-step problem-solving guidance, and community assistance.

AI Project Idea Generator — React.js, Node.js, Express.js, MySQL, AI API

- Developed an AI-powered web application that generates personalized project ideas based on users' skills, interests, experience level, and preferred technologies.
- Integrated an AI API to generate project descriptions, key features, recommended tech stacks, and development roadmaps.
- Built an interactive frontend using React.js and Vite, with a Node.js and Express.js backend for REST API communication.

RESEARCH

AI-Based Coding Problem Solver

Conducted research on AI-assisted programming platforms designed to help students and beginner programmers understand coding problems, identify errors, and improve their problem-solving approach. Studied existing coding assistance solutions and explored how AI and community-based assistance can be combined to provide step-by-step guidance and debugging support.

CERTIFICATIONS

- UI/UX Design & User Experience Development — Complete Guide** (Udemy)
- JavaScript Development — Complete Guide** (Udemy)

Completed training in JavaScript fundamentals, ES6+, functions, arrays, objects, loops, and DOM manipulation.
